

About Us

Meet the Parrone Team
History In 1955, Dominic J. Parrone founded what was then known as D.J. Parrone & Associates P.C. to provide professional engineering and land surveying services. From the outset, the firm embraced the latest technologies and focused on employee education, which helped contribute to its steady growth. Today, Parrone Engineering employs more than thirty skilled professionals who provide a wide range of services to clients in the public and private sectors. Our portfolio of services includes Civil Engineering, Environmental Engineering, Landscape Architecture, Land Surveying and Traffic Engineering.

Mission Statement Parrone Engineering offers the expertise of highly motivated professionals who provide quality engineering and surveying services. We service our clients in the public and private sectors by providing effective solutions to complex problems. Our leadership, vision and ideas will help to develop a better community.

Vision Statement Engineering Excellence through Team Commitment

Values Statement The people at Parrone Engineering are committed to the following values that guide us in the daily operation of our company, establish the trust of our clients, and help achieve the long-term vision of our organization.

We Value: People – We are committed to long-term relationships with our clients and the community. Through honesty, fairness, understanding, loyalty and humility, our firm provides a healthy working environment and respects family life.

Responsibility – We strive for design excellence and quality service to achieve client satisfaction while respecting the environment. Teamwork, dedication and a systematic approach are the fundamentals of our firm.

Leadership – We promote our profession by example and community involvement. Each and every one of us is committed to improving the community in which we live and work by dedicating and sharing our time and talents.

Growth – We invest in professional development, new ideas, and state of the art equipment to achieve profitability, which allows us to provide security to invest in our future.
